

## Product Data Sheet Type: HP-G-8x300

Group: HEATSINKS Active Elements

Heatpipes

Length : 300 mm

Diameter : 8

Surface : Nickel Plated

Material : Copper

filling fluid: Water; heat transmission quantity (W): -55; thermal resistance (K/W): 0,10 - 0,20; Front-End: 12mm; Back-End: 6mm; bend radius: 40°; capillary structure: Grooves; reference temperature: 70°C
